Saturday, October 04, 2014

Dear Parents & Alumni,

I promised to keep you informed about reports of sexual misconduct dating back several decades at St. Mary's International School. After my recent communications, I heard from several alumni who shared stories of abuse.

It is very distressing to hear these accounts, and I am in the process of identifying a panel to conduct an inquiry into reported incidents. When that process is complete, I will report the results back to our community.

Beyond that, the primary focus is making sure there are appropriate policies, procedures and training in place to ensure our students' safety.

I want to make sure something like this never happens again.

I want to express my gratitude to everyone who wrote or reached out to us in some way. I hope you will join me in praying for those who have come forward, and let me know if you have any questions or concerns about this matter.

Sincerely,

Saburo Kagei  
Headmaster
